

*A single nationwide building energy efficiency code is in the best interest of building and homeowners, operators and builders, manufacturers and the general public welfare.*

**The Responsible Energy Codes Alliance**

## **Who We Are**

The Responsible Energy Codes Alliance is a consortium of energy efficiency professionals, product and equipment manufacturers and trade associations. RECA works to improve the energy efficiency of homes through greater use of energy efficient practices and building products.

RECA's primary objective is to support and urge all states and local jurisdictions to adopt and implement the most recent *International Energy Conservation Code\**, without substantive local weakening amendments.

To accomplish this objective, RECA often becomes involved in state and local jurisdiction code adoption discussions and processes. In addition to participating in person, RECA actively encourages local officials to adopt the *International Energy Conservation Code* via letters and comments.

\* The IECC® has been certified by the U.S. Department of Energy under federal law and is the most up-to-date, fully supported nationwide model building energy efficiency code for all buildings.

The Responsible Energy Codes Alliance is a project of  
the Alliance to Save Energy

The Responsible Energy Codes Alliance

## Our Members

Alliance to Save Energy

American Architectural Manufacturers Association

American Chemistry Council / American Plastics Council

American Council for an Energy Efficient Economy

Building Codes Assistance Project

Cardinal Glass Industries, Inc.

CertainTeed Corporation

Chemical Industry Council of Illinois

Dow Construction Materials

Energy Systems Laboratory, Texas A&M University

Guardian Industries Corporation

International Code Council

Johns Manville Corporation

Knauf Insulation

Midwest Energy Efficiency Alliance

National Fenestration Rating Council

Northeast Energy Efficiency Partnerships, Inc.

North American Insulation Manufacturers Association

Owens Corning

Pactiv Corporation

Polyisocyanurate Insulation Manufacturers Association

Southwest Energy Efficiency Project
